MAH INVOICING 2020

As previously communicated in July, the annual fee for OSMR affiliated members for 2021, is **10.500 EUR/MAH**.

The invoicing process will begin next week, and **the payment deadline is set for December 14th, 2020**.

THE ENROLLMENT OF A NEW CATEGORY OF END-USERS IN THE NATIONAL MEDICINES VERIFICATION SYSTEM (NMVS)

Starting with **August 17th, 2020**, a new category of End-Users can on-board the **NMVS**. This new category is defined as: **any other entity authorized by the Ministry of Health to provide medical care, with or without a closed-circuit pharmacy**.

Therefore, in order to on-board NMVS, the envisaged entities will follow the steps as presented on the OSMR website: [Steps to NMVS Onboarding](#)

Furthermore, there is also information available on completing the documents required for the NMVS on-boarding – Participation Request, Terms and Conditions – Operational Phase, Self-Training Confirmation: [Example for Filling In Requested Documents](#)

One concrete case is represented by the **Dialysis Centers**, which, together with the **Participation Request** that they will download from the link mentioned above ([Steps to NMVS Onboarding](#)) and that they will send to the address: manager.inregistrare@osmr.ro, will also have to send **a legible copy of the valid, complete Operating Authorization, issued by the responsible entity (Ministry of Health – Public Health Division)**.

LAUNCH OF ALERT MANAGEMENT SYSTEM (AMS) PROJECT

EMVO announced the launch of the Alert Management System Project and pointed out that the **objective of the AMS** is not to reduce the number of false-positive alerts, but **to support the European Medicines Verification System (EMVS) users (OBPs, MAHs, NMVOs and End-Users) to follow-up on alert investigations**.

Moreover, the AMS team wants to encourage collaboration within the system, thus offering users the option of communicating with each other.

The project is in a preliminary phase and **it's planned for implementation in summer 2021**, the success of this endeavor depends on the collaboration and partnership between the AMS team and the stakeholders.
